

# LOW PROFILE SPILL PALLETS DMXP2002 SPECIFICATIONS

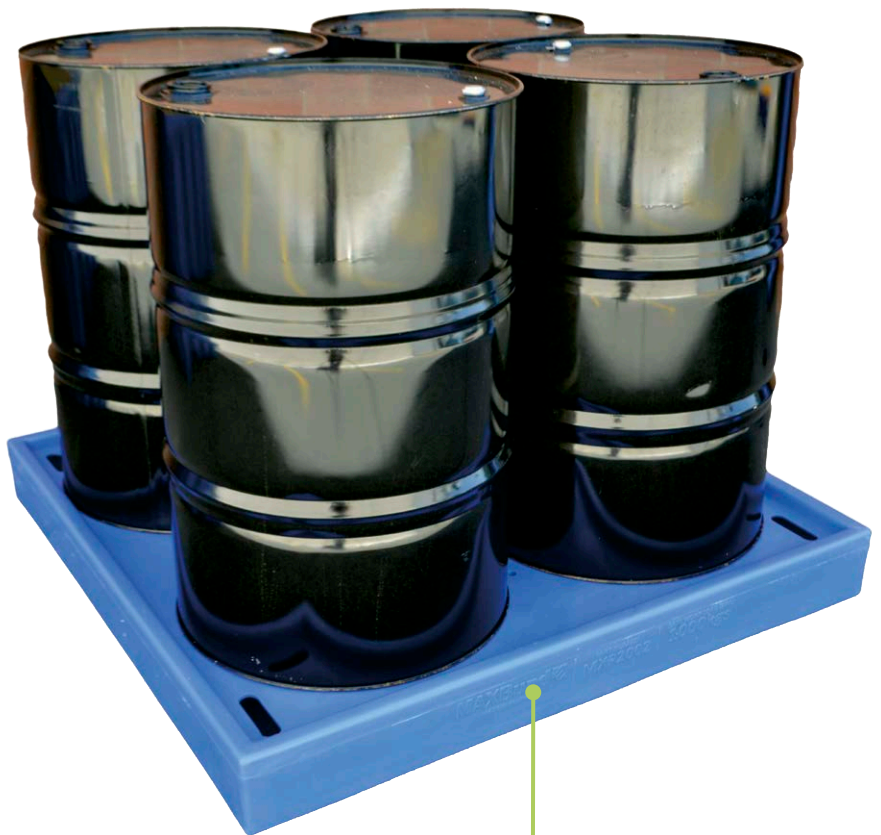

## 4 Drum Bunded Pallet – Low Profile

When manual handling and environmental concerns are equally important, low profile bunded pallets are a good solution.

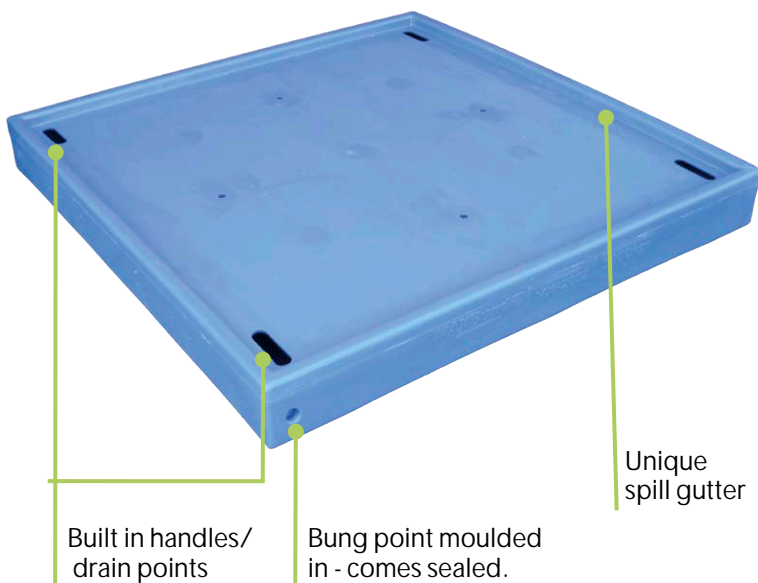

The DMXP2002 version is an efficient and compact bunding system, measuring only 150mm high, and compliant with bunding requirements when used correctly.

This unit can be joined together with a simple bund connector, providing a versatile layout and greater sump capacity.
