

GAS CYLINDER STORAGE RACKS

GBSR9 SPECIFICATIONS

The GBSR9 Gas Cylinder Storage Rack is an effective indoor/outdoor bulk cylinder storage racking system designed for safety and flexibility. This modular unit allows growth in the number of cylinders stored at a site and the ability to organise and segregate gas cylinders by type, empty or full as per safety standard AS4332.

Features:

- Safely secures and restrains gas cylinders indoors or outdoors
- Allows organisation and segregation of cylinders by type, empty or full
- Modular system allows for flexibility to suit individual or changing storage requirements
- Chain anchor plates allow all cylinder sizes to be individually restrained
- Gas cylinder storage area safety sign supplied
- Fast and easy assembly
- Can be safely secured to floor using masonry bolts
- Additional racking bays (GBSR9-AR) are simply bolted on
- Designed to relevant Australian standards including AS 4332
- Zinc finish for long life corrosion protection

Supplied flatpack for on-site assembly
