

GZUNDA BED MOVER SPECIFICATIONS

The Gzunda hospital bed mover is intelligently designed for moving patients safely. It is simple-to-use and is powerful enough for a person to move hospital beds weighing up to 500 kg, single-handedly. Whether you're moving patients between wards, or to and from the operating theatre, the Slimline Bed Mover keeps your medical staff safe from muscle and back strains.

It has easy-to-use controls, including key start, twist grip variable speed control, horn, and emergency stop button. As with all Electrodrive equipment, the Slimline Bed Mover comes with a comprehensive 12-month warranty, including parts and labour.
